HONORS & ACHIEVEMENTS

- **1st Place Winner**, Pak Angels & HEC Generative AI Hackathon (Cohort 3) – Ranked 1st nationwide out of 311 competing engineering teams with Legal Lens AI[cite: 2]. [View Official Winners Sheet]
- **Academic Excellence Gold Medalist (1st Position)**, Govt. Hanifan Begum College – Secured 1st Position across the entire ICS graduating cohort (Session 2022–2024, Lahore Board)[cite: 28, 29].
- **Prime Minister's National Youth Laptop Award (2025)**, Awarded a high-performance laptop by the Government of Pakistan on strict academic merit criteria[cite: 30].
- **Kaggle Datasets Expert (Global Rank 310)**, Authored 6 published open-access datasets maintaining flawless 10.0 Usability Scores and 55+ public analytical exploration notebooks[cite: 22, 23, 24]. [Kaggle Profile]
- **Demonstrated Excellence Award**, FortyGuard Hackathon'26 – Built a street-level urban heat risk assessment platform to deliver real-time public safety intelligence[cite: 27]. [Certificate]
- **Graduate Fellow**, Aspire Leaders Program (Sep 2026) – Completed 40+ hours of interactive leadership, cross-cultural ethics, and social impact seminars founded by Harvard University faculty.
- **Global Finalist / Builder Track**, HackerRank Orchestrate AI Agent Hackathon – Competed among 12,885 international participants to architect and deploy functional end-to-end autonomous agents in a 24-hour sprint[cite: 2, 4]. [View Proof]
- **Selected Participant**, Harvard CS50x Puzzle Day 2026 – Selected to collaborate on multi-perspective cryptographic and algorithmic problem-solving tasks under tight time constraints[cite: 18]. [Certificate]
- **Qualifier**, International Computer Science Competition (ICSC 2026) – Successfully advanced through the national competitive programming qualification round.
- **Merit Standing**, Virtual University of Pakistan – Maintained a 3.80/4.00 CGPA across advanced computing, data analysis, and mathematical modeling coursework.

EDUCATION

Virtual University of Pakistan — **Lahore, Pakistan (Remote)**
Bachelor of Science in Data Science – ***CGPA: 3.80 / 4.00*** *(5th Semester)* — *2024 – 2028*

– Relevant Coursework: Data Structures, Object-Oriented Programming, Database Management Systems (DBMS), Discrete Mathematics, Statistics & Probability, Operating Systems, Machine Learning Foundations.

Govt Hanifan Begum Associate College for Women — **Mustafabad, Kasur**
Intermediate in Computer Science (ICS) – ***1st Position Gold Medalist (85%)*** — *2022 – 2024*

GGHS Lakhnekay — **Kasur, Pakistan**
Matriculation (Science) – ***Percentage: 90%*** — *2020 – 2022*

TECHNICAL PROJECTS

CivitasX – AI Policy Impact Simulator [Live App] [GitHub] — **Aug 2026**

Tools: Python, Streamlit, Google Gemini API, pytesseract (OCR), Plotly, Pandas

– Built an AI application using Streamlit and Google Gemini API with an OCR fallback (pytesseract) to ingest and parse unstructured policy drafts from raw text and PDFs.

– Simulates and generates structured economic, social, and environmental impact assessments while evaluating sector-specific risk factors.

– Integrated interactive Plotly analytical impact dashboards accompanied by multilingual audio synthesis support for broader accessibility.

Vital Signs – Early Student Dropout Risk Predictor [Live App] [GitHub] **2026**

Tools: Machine Learning, Python, Next.js/React, In-Browser Serverless Inference, Scikit-Learn

- Built and deployed an end-to-end predictive machine learning web application analyzing 11 behavioral and academic metrics to predict student dropout risk in distance education.
- Achieved high predictive performance with **83% accuracy** and an **0.85 ROC-AUC score**.
- Implemented serverless, in-browser inference with interactive risk breakdown tools, batch CSV analysis for academic advisors, and bilingual UI support.

MockMaster AI – Intelligent Technical Interview Simulator [Live App] [GitHub] **2026**

Tools: Python, Streamlit, Google Generative AI SDK, Audio/NLP Processing

- Engineered an AI-driven interview preparation web application deployed on Streamlit that transforms uploaded candidate resumes into personalized study regimens.
- Features candidate gap analysis, targeted domain-specific question banks, and structured STAR method answer coaching.
- Constructed an interactive mock interview simulator evaluating candidate responses against technical benchmarks with structured scoring metrics.

Pollution-App (EcoIntel) – Real-Time Environmental Air Quality Intelligence [Live App] [GitHub] **Oct 2026**

Tools: Next.js, React, TypeScript, Tailwind CSS, Open-Meteo API, WAQI API, Vercel

- Architected a responsive environmental surveillance dashboard streaming live real-time AQI, PM2.5, PM10, temperature, and atmospheric pressure metrics.
- Implemented global multi-city search using WAQI API integration, displaying predictive health advisories and pollution hazard classification bands.
- Optimized asynchronous state rendering on Next.js/Vercel with interactive historical emissions charts, achieving fast initial load times.

Legal Lens AI – Automated Contract Vulnerability & Risk Detection [GitHub] **May 2026**

Tools: Python, Streamlit, Large Language Models (LLMs), NLP, GenAI Agent Architecture

- Developed an automated contract intelligence system scanning agreements to surface buried liabilities, unfair indemnification, and unilateral clauses.
- Designed chain-of-thought prompting workflows to translate dense, obfuscated legalese into actionable plain-language briefs with risk ratings.
- Awarded **Rank 1 out of 311 competing projects** in the 48-hour national Pak Angels & HEC Generative AI Hackathon cohort[cite: 2].

INTERNATIONAL HACKATHONS & PORTFOLIO

- **International Hackathon Portfolio:** Actively competed across multiple global AI and software hackathons. Full submissions, pitches, and prototypes are publicly verifiable on [Devpost Profile] and [Lablab.ai Profile].

FortyGuard Hackathon'26 **Global / Remote**

Urban Heat Risk Dashboard – Real-Time Safety Guidance [Certificate] *Aug 2026*

- Built a street-level urban heat risk assessment platform demonstrating technical excellence in modeling micro-climate heat islands and pedestrian vulnerability[cite: 27].
- Developed predictive heat hazard indicators and interactive thermal safety guidance to support public health interventions during extreme temperature spikes[cite: 27].

AssemblyAI Voice Agent Hackathon – Lablab.ai **Remote**

Voice Intelligence Track [Certificate] *Sep 2026*

- Built and deployed a low-latency conversational agent pairing AssemblyAI speech-to-text models with generative LLM inference for speech interactions.

IBM Bob 2.0 Hackathon – Lablab.ai **Remote**
Multimodal AI Track [Certificate] *Sep 2026*

– Architected a multimodal vision pipeline utilizing GPT-4 Vision, Cursor AI, and IBM cloud infrastructure deployed seamlessly on Vercel.

OPEN-SOURCE CONTRIBUTIONS & DATASETS

- **AI Job Market 2026: Automation vs Traditional Roles** – Authored and cleaned an extensive analytical dataset examining job market restructuring under generative AI integration (10.0 Usability Score on Kaggle)[cite: 23, 24]. [View Dataset]
- **Popular Movies & TV Shows Dataset 2026** – Created an extensive streaming metrics and box-office benchmark dataset indexed and utilized by data science peers worldwide[cite: 23, 24]. [View Dataset]
- **Pakistan Student Screen-Time & Exam Performance** – Empirical survey-based dataset exploring screen exposure vs academic outcomes across undergraduate student demographics[cite: 24]. [View Dataset]

LICENSES & CERTIFICATIONS

- **Neural Networks & Deep Learning** – DeepLearning.AI / Coursera [Verify Credential] [cite: 6]
- **Google Data Analysis with Python Specialization** (6 Courses) – Google [Verify Credential] [cite: 14]
- **Foundations: Data, Data, Everywhere** – Google [Verify Credential] [cite: 7]
- **Explore & Visualize Data the Python Way** – Coursera [Verify Credential] [cite: 8]
- **The Data Science Profession** – University of London [Verify Credential] [cite: 12]
- **Data Analytics & Business Intelligence** – DigiSkills.pk (Credential ID: 8XXX8RVMK) [Verify Credential]
- **C++ Essentials 1** – Cisco Networking Academy [Verify Credential] [cite: 3]

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, C++, x86 Assembly Language
Libraries & Frameworks: Pandas, NumPy, Scikit-Learn, Streamlit, Next.js, React, Tailwind CSS, Plotly, Matplotlib, Seaborn
AI, LLMs & OCR: Google Gemini API, Prompt Engineering, Autonomous Agents, pytesseract, Sentence Transformers, GPT-4 Vision
Developer Tools & DevOps: Git, GitHub, VS Code, Google Colab, Jupyter Notebooks, Vercel, Cursor AI, Postman
